

Got Bins?

November and December 2010

Beginning on November 1, The City of Medford will replace current residential recycling and trash services with automated trash and recycling collection, including **SINGLE STREAM RECYCLING** (“mixed” recycling).

What to do with your old small household bins?

The Andrews Middle School Environmental Club will gladly accept any small recycle bin that you no longer wish to use. Please **clean and rinse recycle bins before bringing them to school.**

Our goal is to get more bins into the classroom so that we can implement more recycling here at AMS. We appreciate your help in being able to “Do One Thing” to help out the environment we live in.

Collection Days: Tuesdays After School
