The Curtis Tufts program provides opportunities for success in an alternative high school setting. Its major goals include helping students to acquire a 21st century education; promoting social, emotional and developmental growth; improving learner self-esteem while influencing lifelong learning. Successful completion of the Program will develop confidence for safe and independent living, as productive healthy contributors to a diverse and rapidly changing world.

The program provides a therapeutic/educational environment that exhibits understanding, empathy and compassion for the individual needs of each student it serves. We provide a means of improving student attendance and behavior while educationally motivating our students into responsible citizens who possess personal integrity and the ability to be successful in today’s society. The Program collaborates with parents, state and local officials, medical and related service providers, and the community at large in its quest for a successful and fruitful outcome of high school graduation.

Kathy Medaglio
Director of Pupil Services

Anthony Volpe
Administrative Program Director
The Curtis Tufts High School Program
A fully approved public-day program, incorporating all educational programming found in the local high schools. There is a significant addition of Clinical Services including on-going individual therapy. Specially designed small group instruction is provided to address individual academic and accommodate the social and emotional needs of students. Those who present as emotionally fragile or anxious can also be supported in this program. Crisis Intervention/Prevention Programming is monitored via behavioral incentive programs and through Behavior Intervention Plans.

Individual and Group Counseling and pragmatic language/behavior instruction are essential elements of these programs. Facilitated mainstreaming of students is strongly encouraged as students demonstrate progress toward goals, with decisions for inclusion made on an individual basis. The program includes an enriched transitional component to facilitate community access, vocational work skills.

Full Time Staffing of this Therapeutic, Public Day Program is inclusive of a Program Director, Special Education Teachers, Paraprofessional, and School Adjustment Counselors. Related service providers are prescribed as indicated by the student’s Individual Education Plan.
